**Responses to the Attorney General's Fifth Set of Information Requests**

---

**Request No. AG-5-6 (Electric)**

Please provide the cost of service studies that the Company relied on to unbundle its rates in DTE 97-110. This response must include the cost data supporting the initial external and internal transmission service charges.

**Response:**

FG&E's Electric Division believes this request refers to DTE 97-115, FG&E's Electric Restructuring Plan. Attachment 1 AG-5-6 is the Electric Division's 1995 Functional Cost Study. Attachment 2 AG-5-6 is the 95 FERC Jurisdictional Transmission study used in the 1995 Functional Cost Study. As discussed in the Electric Division's Restructuring Plan and the March 3, 1997 Rate Unbundling Compliance Filing in DPU 97-44 the Electric Division used the 1995 Functional Cost Study to unbundle its rates. Attachment 3 AG-5-6, provides Pages IV.3 and IV.4 from FG&E's Electric Restructuring Plan which describe the costs contained in the Internal and External Transmission Charges. Attachment 4 AG-5-6 shows the Development of Unbundled Prices as provided in the March 3, 1997 Rate Unbundling Compliance Filing. These schedules shows the development of the initial Internal Transmission Charges effective March 1998. Attachment 5 AG-5-6, shows the development of the PTF Credit. As discussed in AG-5-9 the PTF Credit was initially included in Internal Transmission and was moved to the Transition Charge pursuant to the Final Order in D.T.E./D.P.U. 97-115/98-120 (Jan. 15, 1999), effective February 1, 1999. Attachment 6 AG-5-6 provides the cost data supporting the initial External Transmission Charge, effective March 1998.
